

The Business, Science, & Technology Center of the San Francisco Public Library Presents:

Laurie Vollen, MD
Medical Marijuana: True Medicinal Use

Tuesday August 9, 2016
6:00pm-7:30pm

San Francisco Public Library
100 Larkin Street (at Grove)
Koret Auditorium
San Francisco

Please join me for an evening presentation at the San Francisco Public Library, Tuesday August 9 at 6pm. For the past 16 years, I have had the privilege of helping thousands of patients harness the medicinal properties of cannabis.

This evening's presentation will include some remarkable stories from those patients, as well as up-to-date information on the science behind the effectiveness of marijuana, the fundamental building blocks of an effective marijuana practice, and the challenges patients experience when they choose marijuana over pharmaceuticals for their medical care. Hope to see you!
